

# bhi

## DSP noise reduction for your FT- 817

### Features:

- 4 levels of noise cancellation (upto 35dB)
- Single button operation
- Low power consumption
- Low distortion to audio signal
- Retain the internal battery pack
- Can be used in conjunction with optional filters
- Completely internal fitting - no flying leads
- Visual and audio indication of filter level
- Automatically remove tones

# bhi

Single Button operation, with LED indication.  
No external wiring.

Retain the internal battery pack for mobile use.

Specifications:

Description	
White Noise Attenuation	Level 1 11dB
	Level 2 13dB
	Level 3 19dB
	Level 4 35dB
Tone reduction	Level 1 5dB
	Level 2 8dB
	Level 3 21dB
	Level 4 65dB
Voltage	5 - 15 Vdc
Current consumption	45mA
PCB size	26 x 37mm
